

# Introducing HAWS® SERVICES

## WHAT WE DO

### EMERGENCY RESPONSE MAINTENANCE, REPAIRS, AND COMPLIANCE

Specializing in emergency shower and eyewash product commissioning, preventative maintenance, annual ANSI site surveys and inspections, repairs, and educational training programs for certification.

### RELIABLE PRODUCT COMMISSIONING

From new installations to existing systems, we assist in design, installation, testing, troubleshooting, and operation. Our commissioning experts provide complete and thorough services according to the products operational requirements.

### EXTENSIVE ANSI Z358.1 COMPETENT PERSON TRAINING

With many safety policies and standards to abide by, it can be difficult to be knowledgeable and proficient on all the important details. **Haws Services** offers **onsite** and **online** step-by-step ANSI compliance education and training support to help your team better understand the value and importance of compliant equipment and the potentially severe effects of noncompliance. Training includes:

- Review of the ANSI Z358.1 Standard
- How to Conduct Weekly and Annual Inspections
- Quiz to Ensure Comprehension
- Receipt of Certification

The training is ideal for site personnel responsible for conducting weekly activations and annual inspections.

## HAWS® SERVICES

### COMPREHENSIVE ANSI Z358.1 ANNUAL INSPECTIONS

ANSI compliance is a crucial component of emergency shower and eyewash first aid. **Haws Services** offers in-depth, onsite evaluation and testing to assess your facility's compliance to ANSI requirements. In addition, we provide robust reporting and detailed recommendations to bring your site to compliance with the current ANSI Z358.1 Standard.

### PREVENTATIVE MAINTENANCE

Ongoing requirements to maintain properly functioning emergency equipment can be challenging in conjunction with all the other safety and first aid systems. **Haws Services** offers all-inclusive services to guarantee accurate cleaning, inspection, and replacement of necessary parts and/or units to ensure proper functionality and longevity of emergency equipment.

### EMERGENCY EQUIPMENT PRODUCT REPAIRS AND UPGRADES

Onsite repairs and/or upgrades by experienced and knowledgeable ANSI compliant emergency shower and eyewash experts.
